[measure numbers]: Because WCS figures often span partial measures we have numbered the measures in each part beginning with '0' (zero). Example 1: if the 1 st figure was only a half measure it would start at [0] and the next figure would start at [1.5]. Example 2: if the 1 0 figure is 1 1/2 measures it would start at [a] and figure #2 would start at [1.5]. If the 2nd figure is 2 measures starting at [1.5], the 3rd figure would start at [3.5] and so on.

Syncoptions: A wide variety of syncoptions can jazz up the beginning, middle, and or the ending of each figure. For a brief list please see the `Sugar Push article on website below or the URDC Technical Dance Manual (<http://www.urdc.info> - WCS compiled by Wayne & Donna Slotsve from Buddy Schwimmer's brain).

Anchor Step: Figure starts with the trail foot Cross trail foot in back of lead foot, recover onto lead foot, and step slightly side and back with your trail foot. The timing is like a triple in jive, quick and quick (Q&Q). **Footwork:** XRIB of U rec L, sd & bk R (W XLIB of RI rec R, sd & bk L)

Hammerlock is like the "Tamara" position. The lead hands (M's left hand & W's right hand) are held high and the trail hands (M's right hand & W's left hand) are joined low behind the W's back. The couple is in BJO position (slight offset to the right of each other).
